

441—172.32(234) Service eligibility. Supportive child welfare services are designed to provide services for children when:

1. The department has initiated a child protective assessment in response to receipt of a report of child maltreatment concerning the child or another child within the same family; or
2. The department has assumed care and supervision of a child placed in out-of-home care; or
3. The department has opened a child welfare service case on the child or family following a child abuse assessment or juvenile court action; or
4. A child in need of assistance petition has been filed on behalf of the child and the court has set a date for the prehearing conference or adjudication hearing.
